

EWELIN LOO

WEB DEVELOPER

ewelin.codes

ABOUT ME

I was first introduced to coding while participating in online communities like Neopets and GaiaOnline. Today, I enjoy being involved in the developer community by speaking at meetups like Ruby on Rails Oceania and attending hackathons like #flattenthecurvehack.

I love dogs, particularly greyhounds. I've spent a couple of months volunteering for Assistance Dogs Australia and currently sponsor a hound at Greyhound Rescue.

I'm a master dabbler. Past hobbies I've dabbled in include: knitting and crochet, plus various musical instruments such as clarinet, ukulele, classical guitar, and singing. Most recently, I've decided to take up drawing.
